

WHEAT CRASH CRISIS TERRORIFIC SMASH

Official Foreign Field Data Shows Sharp Decreases

Totals of Reducing Nations Away Down
Says U.S. Report—Canada's Condition
Said Worst in 26 Recorded Years

WASHINGTON, June 9.—Sharply decreased world wheat production for 1934 was forecast today by the United States department of agriculture in its report on the foreign wheat crop prospects, issued in conjunction with the domestic crop estimate of about 500,000,000 bushels, which was far below normal production and consumption.

The figures on acreages were:

	1933	1934
U. S. A.	43,080,000	33,376,000
Canada	26,201,000	21,182,000
Australia	14,741,000	15,741,000
Argentina	17,255,000	15,740,000

In Canada, acreage was reported as showing a decrease of 1,413,000 from 1933. The worst condition in the 26 years records have been kept.

'PEG PRICES IN CHICAGO WILT IN PIT ATTACK

Profit Taking Causes
Downturn—Bullish Re-
ports Influential

WINNIPEG, June 9.—Firmness of prices on the Winnipeg grain exchange wilted under a Chicago selling assault near the close of trading today and prices inched 1/2 of a cent lower to 79 1/2.

Prices gained about two cents on the bullish influence of Canadian and United States crop reports at the opening.

Profit-taking towards the end in the Chicago pit, where prices ended fractionally higher, caused the Winnipeg downturn. July option closed at 77 1/2 cents, October 79 1/2, and December 80 1/2.

The bullheads of the crop reports issued at Washington and Ottawa yesterday, reflecting poor crop prospects despite heavy rain in drought areas, was the chief influence in the trading. Early demand for what was met gradually and after the export sales of a few percent decided to waver in a rally of about 200,000 bushels.

BRITISH YACHT WINS 2 TRIALS

SOUTHEND, Eng., June 9.—Endeavour today won her second straight race in the trials against the American cup defender, losing two minutes by a false start and then outlasting the fleet to the second boat, Astra.

Her time for the 40 miles in light air was four hours, 33 minutes, 56 seconds. On corrected time Astra was seven minutes behind in 4:40:51. Shamrock V. third, 12 minutes behind the latter's handicap of 12 minutes.

The race was the closest approximation made in the trials to actual conditions and T. C. Boucher, with appeared highly placed with his craft's performance.

STEEL STRIKE IS NOW OMINOUS

WASHINGTON, June 9.—Aimed a roar of bitterness, steel union agitators revolved today against a plan for peace in the United States steel industry approved by Hugh B. Johnson and the employers.

They swore to see President Roosevelt today, present him a plan of their own and then hurry home to prepare to fight.

The threat of a steel strike, which many officials feared would start the first birthday of the Wagner law, the recovery drive, seemed still ominous.

SCRATCHES

CHINOOK PARK, CALGARY. First race—Kate A. Star, trainer, Thos. M. J. Smith, driver. Second race—White House, trainer, Thos. M. J. Smith, driver. Third race—Little Brown, trainer, Thos. M. J. ONE DEAD SHOT HURT IN SMASH Eyes Have It: Out Of Dixie Land

CALGARY, June 9.—Two automobile collisions on rural highways have taken the life of one woman and caused injury to six other persons today.

Near Crossfield, Alta., Mrs. Lena Horechka, 60, of Raycroft, was fatally injured. She died in hospital here early today. The car in which Mrs. Horechka was a passenger collided with a truck when the driver swerved out to pass another truck parked on the highway. Three other passengers and the truck driver were injured.

In a similar collision near Airdrie, Alta., Mrs. M. Myers of Shaunavon, Sask., was seriously injured and is a patient in hospital here. Sigurd Sande of Leslieville, Alta., also was injured in this accident. The cars collided head-on.

ROOSEVELT ASKS \$525,000,000 To AID DROUTH AREA

Large Scale Assistance Needed to Combat
Suffering of U.S. Farmers—Relief
Is Needed

WASHINGTON, June 9.—President Roosevelt asked the United States Congress today for \$525,000,000 to finance the drought relief program the administration already has undertaken.

A large-scale assistance by the Federal government is necessary to protect people in the stricken regions from suffering, to meet need to livestock, and livestock to feed, and to acquire and process surplus cattle to provide meat for relief distribution," he said in a message to Congress.

Absolute freedom for the administration to spend the money as it saw fit was asked.

"We are dealing with a rapidly-changing problem and it is important that the authorization should be flexible so that funds can be allocated to the several federal agencies as required," the President said.

He detailed the proposed relief expenditures as follows:

- \$125,000,000 for special work of the Federal Bureau of Investigation.
- \$75,000,000 for livestock purchase in addition to the \$100,000,000 already available under the Jones-Costigan Act.
- \$100,000,000 for shipping, processing and relief distribution of purchased cattle.
- \$100,000,000 for loans to farmers to finance emergency feed purchases and shipments.
- \$100,000,000 for emergency relief of subsistence farmers and assistance in relocating them from famine-stricken areas.
- \$50,000,000 for work camps to absorb unemployed men in the drought area for young men principally from cities and towns.
- \$25,000,000 for the purchase of seed for 1935 planting, and for seed to get seeds into farmers' hands.

GENE SARAZEN TAKES LEAD IN OPEN TOURNEY

Overhauls Bobby Cruick-
shank Midway in Third
Round Stricket

MERION CRICKET CLUB, Philadelphia, June 9.—On a stable that found all the leaders falling, Gene Sarazen took the lead today by a one-stroke margin from Bobby Cruickshank, of Richmond, Va., at the end of 4 holes of the United States open golf championship.

Sarazen tallied a third round 73 for a total of 219, while Cruickshank's aggregate was 219 after a poor 77.

The Scope of Deflation

By R. T. LILLIOTT, K.C.

Governor James Rolph of California, whose recent visit to the United States was that of a man of honor, diligence and wide human kindness, was himself authority for the statement that post-war conditions had wrecked his business life. This statement was published a few weeks before his death.

Mrs. E. H. Watts, president of British S.S. Co. Ltd., and one of the leading shipbuilders in Great Britain, has prepared and given publicity to a statement dealing with the capital and financial condition of one hundred and fifty British shipbuilding companies. The total value of all the vessels ordered by these companies is slightly in excess of ninety million dollars. The amount of money in the hands of these companies amounts to over forty-five million dollars, and as interest and taxes are piling up and not returning the tide, it is plain that the shipbuilding business is at the end of its tether.

When a corporation is still strong enough to pay off debts now due by selling new bonds but not off old bonds it is hailed as a financial rock of Gibraltar. The old-fashioned idea of paying off

bonds in cash has been dismissed from the corporate mind. Real estate ownership is a liability all over the world; an estate and property liability in the United States and Canada.

These facts when considered as types of world conditions, and analyzed through to finally, prove that deflation attacks both capital and labor. Loss of capital and loss of earning power go hand in hand.

Strikes for higher wages have only succeeded when there has been the money to pay the higher wages. The present deflation which has destroyed power from one end of Canada to the other can only be remedied by increasing money in circulation, restoring international trade facilities by tariff reform, and undertaking some work of construction which will result in a major movement of population and will open up a new market for Canadian products and Canadian commodities.

None of these things are ever considered by the Ottawa Parliament. It is certain that general election must be held before any work and wages policy will be anything more than an ideal dream.

Father Giroux Is 40 Years Priest

In North Country

CHANDLER, June 9.—Father Giroux, Roman Catholic priest, completed his fortieth year of priesthood on May 31.

His first parish here was at Wasaga, commencing in 1906, later at St. George's, and now at St. Mary's.

Father Giroux, now 40 and still in the prime of his life, has been in the priesthood for 16 years. He is a native of the North Country, and has been in the priesthood for 16 years.

Rain Improves Crop Conditions

MANVILLE, June 9.—Crop conditions have greatly improved here since the rain of May 31.

The soil is now moist and the crops are growing well. The rain has also helped to clear the air and improve the general health of the crops.

After Two Years Drills Through Pin

MEAFORD, Ont., June 9.—Henry Hux, local watchmaker, yesterday succeeded in drilling through a pin which had been in the watch for two years.

The pin was found in the watch when it was brought in for repair. Hux spent two years trying to remove it, but finally succeeded in drilling through it with a special tool.

DEATH BY WISHING

You mean that a man can conjure up poison in his own body and transfer it by thought waves to the brain of another and thus cause death?

"Exactly." "In what time?" "From seven days to ten."

"But how can such things go on?" "By the use of the thought waves."

"You mean, however, that a man can transfer his own poison to the brain of another and thus cause death?"

"Exactly." "In what time?" "From seven days to ten."

"But how can such things go on?" "By the use of the thought waves."

"You mean, however, that a man can transfer his own poison to the brain of another and thus cause death?"

"Exactly." "In what time?" "From seven days to ten."

"But how can such things go on?" "By the use of the thought waves."

Storm Centre Of Attack On Darrow Note

Discord of Arms Party Now Love Feast of Mutual Support

GENEVA, June 9.—The World disarmament conference was saved Friday from a serious crisis that had appeared inevitable.

Anglo-French differences were buried in an exchange of warm compliments, and the conference adopted the compromise resolution on procedure achieved at a meeting last night of the conference.

The prime minister cleared the murky air between England and France and the two delegations, but later at dinner there were all smiles and compliments in international relief facilities by tariff reform, and undertaking some work of construction which will result in a major movement of population and will open up a new market for Canadian products and Canadian commodities.

None of these things are ever considered by the Ottawa Parliament. It is certain that general election must be held before any work and wages policy will be anything more than an ideal dream.

Bank Robber Gets \$3,000 Cash Haul

MONTREAL, June 9.—A lone bandit, armed with a revolver, made a successful raid on the Bank of Montreal yesterday, carrying off \$3,000 in cash.

The robbery took place at about 10:30 a.m. in the main branch of the bank on St. James Street. The bandit was seen running away with the loot.

Our Old Country Letter

By J. EDWARD NORRIS

AMERSHAM, Bucks, May 30.—(By Mail)—I had passed by the Temple on my way to the office, and I saw a sign which read "The Old Country Letter".

I was interested in the sign, and I went in to see what it was all about. I found that it was a letter from a friend of mine, and it was a very interesting one.

The letter was from a friend of mine, and it was a very interesting one. I found that it was a letter from a friend of mine, and it was a very interesting one.

The letter was from a friend of mine, and it was a very interesting one. I found that it was a letter from a friend of mine, and it was a very interesting one.

The letter was from a friend of mine, and it was a very interesting one. I found that it was a letter from a friend of mine, and it was a very interesting one.

Career Woman Will Find Their Place Like Home Fireside

Is there a discount on love today? Has the buying power deteriorated with the fall of the dollar? When a woman announces that she is willing to let her marriage go by the boards if she can be a sheriff, love valuation becomes something that can be reckoned in post-war script.

Mrs. Nevada J. Benson is the latest exponent of the theory that a woman should take her career seriously. She is a candidate for the Democratic nomination for sheriff of Tulsa County, Oklahoma. She has announced that if she wins the election she will divorce her husband and devote all of her time to acting as official jail protector, and preserver of law and order. Mr. Benson wants his wife to wear the sheriff's badge. He is going to vote for her—though one would or the other he is casting a loving vote.

EVER since the first Grecian philosopher compounded words of wisdom for the rest of mankind to believe, we have accepted the fact that love is the motivating theme of a woman's life. However, love has always been conceded to be something apart from a woman's career. Not particularly so, when men have said that it is not marriage but marriage interference with career. But Mrs. Benson's attitude is conditional. If she can't have her job she'll keep her husband. Second best, it appears. But it's all right by her.

Mrs. Benson is not a modern woman judged by the standards of the day. She is a woman of the past. Today's women cheerfully take two or three jobs, and their children win health and contentment as they have and their mothers are comfortably off. If not always romantically, even our great grandmothers extended their duties beyond the hearth. They were planting, acting as doctors, judges and advisers when their people needed them.

THE candidate for sheriff may have made her statement because she was swept away by a great tide of jubilation over the possibility of election. It is quite probable that down in her heart she did not mean what she said. But if she did, it might be to remind it, the capable element of the feminine population does not have its consolation in the fact that it is not a man's world. It is a woman's world. The admission that a husband is of secondary consideration doesn't mean that women have lost their sense of duty. They are wrapped up in man. The remark is a loving one.

Mrs. Benson would be a remarkably fine sheriff who could rule her home efficiently, too, if she just tried. But to let her husband go because her career is more important to her is a different matter. If the Benson love each other and Mrs. Benson wins her election and keeps her promise, it is a safe bet that Mrs. Benson will be sitting on the jail steps waiting for her man the day her term expires.

SUMMER SCHOOL • OPENS JULY 3rd

Summer School at the University of Alberta will commence on July 3rd, and will continue until August 1st. Courses are offered as usual both under the departmental system and the University system. The University system will continue until August 1st, and registrations in both systems are already being received.

Last year the total registration for all parts of the province, from all the universities, was 500. The majority being from the province. Many teachers are interested in this year in the courses on the principles of education, rural education and its history, history of education, education, character education and cooperative education.

The school of drama, inaugurated three years ago, will be continued this year by Mr. E. S. Haynes and Mr. Theodore Cohen will be instructed in studies in voice production, public speaking, educational dramas, and the art of acting.

COOL DECORATIVE IDEA

Here pictures with pretentious-looking frames have no place on walls in the summer time. If you feel that walls without any decorations are much too bare, why not use small prints.

Expensive floral prints and small cuttings in paper, fabric, dainty frames are suggested. But use them sparingly. Five or six small prints in a room will be just enough to make a living room while dining and bedrooms can do with even less.

Heavy tapestries and wall hangings must come down, too. With the windows open so much of the time, they collect dust and dirt, and in addition, they make a room seem overcrowded and too warm for comfort.

TENTS

Spending your vacation under canvas can only be enjoyed if properly equipped. We carry a complete line of TENTS and CAMPING EQUIPMENT. Your inspection is welcome at all times.

EDMONTON BULLETIN

An Old Idea in Modern Guise

There is a new twist to the old idea of a woman's career. It is not marriage but marriage interference with career. But Mrs. Benson's attitude is conditional. If she can't have her job she'll keep her husband. Second best, it appears. But it's all right by her.

EVER since the first Grecian philosopher compounded words of wisdom for the rest of mankind to believe, we have accepted the fact that love is the motivating theme of a woman's life. However, love has always been conceded to be something apart from a woman's career. Not particularly so, when men have said that it is not marriage but marriage interference with career. But Mrs. Benson's attitude is conditional. If she can't have her job she'll keep her husband. Second best, it appears. But it's all right by her.

THE candidate for sheriff may have made her statement because she was swept away by a great tide of jubilation over the possibility of election. It is quite probable that down in her heart she did not mean what she said. Says Teaching Provides Outlet For Spinsters

Hot Protests From Pedagogues Greet Statement of London Scientist

LONDON, June 8.—Dr. H. Crichton-Miller's statement at a recent meeting of the Society of Teachers, said that "school teaching is regarded by the community at large as a very useful way of using superfluous unmarried women" has met with indignant denials from many educational authorities.

Mrs. E. F. Frost, secretary of the National Union of Women Teachers, said: "Dr. Crichton-Miller's statement is a very extraordinary insult to women and women's work, though he is a man of science. There are two reasons why there are fewer men teachers, Mrs. Frost added. "Teaching is a very difficult job and men don't want it, and when men come in they want only the plums."

Frank Rouse, secretary of the Royal Society of Teachers, said: "Dr. Crichton-Miller's statement is not only false but somewhat insulting. Women have a definite place in our school system. Their services in the infant schools of this country have been the admiration of educationalists throughout the world."

The country does feel that a school-mistress is as good as a schoolmistress. Rouse thought, because the average parent recognizes the fact that for all young children teaching by women is best.

What Has Changed In Women's Clothing Meant To World?

MONTREAL, June 9.—The relative merits of women's clothing today and the garments of 50 years ago were the subject of a debate between members of the Westmount Women's Club.

In fiction of 50 years ago one reads about Arabella swooning but the wonder was Arabella did not swoon at the sight of the picture of the sort of clothes into which the fashions of the day had changed. It was no wonder the mid-Victorian bathing beauty never learned to swim, she added, considering the type of bathing costume she wore.

Another member came back with the remark that the red slatted petticoat and the calicoe history of 50 years ago would have been a boon during the war, as it was a simple, clean, and comfortable. The costumes of that period, she said, were admirably more beautiful, inasmuch as they were covered for fancy dress balls today.

Members of the Women's Canadian Labor Council will meet for social evening at the home of James East, 11220 9th Avenue, on Wednesday evening, June 13, at 8 o'clock. This will be the last meeting before disbanding for the summer months in the British Isles. The winter of the club will be announced at this meeting.

The Calgary alumnus club of Pi Beta Phi Fraternity and active members in the city entertained at a bridge on Wednesday evening at the home of Miss Hazel Wilkinson, Elbow Drive, when Miss Helen Thimothy, who is visiting in Calgary this week, was among the guests.

Miss Eva Tangner is entertaining on Thursday for Miss Emma Cahill, whose marriage will take place this month.

Miss Emma Cahill, who for three years has been an officer in the Diocesan executive of the Catholic Women's League, was made the recipient of a charming painting at a meeting on Thursday evening at the home of Miss Catherine McGraith this week. Miss Cahill's marriage is expected for the latter part of June.

SOUTH SIDE I.A.
Mrs. R. H. Watson has offered her home for a June party arranged by the South Side Independent Ad of First Presbyterian church to be held on Wednesday, June 13. Plans were concluded at the meeting held this week at the home of Mrs. J. H. McDonald. Mrs. Watson and Mrs. Jones assisted at the service of devotion preceding the meeting, at which it was decided that the September reunion following the summer session should be held at the home of Mrs. Watson.

SHINY GLASSWARE
If you wash your glassware to be clean and shiny, don't rinse them. Simply wash them in clean, very hot, soapy water and dry immediately. The same rule applies to silver, brass, and other glassware.

The latest thing in platinum wedding rings is set with diamonds in ribbon shape. These are to match the baguette diamond engagement ring.

CONFERENCE OF U. F. W. A. HELD IN WETASKIWIN

Dr. C. H. Baragar Addresses Meet on "Mental Health"

LACMONT, June 8.—Before the Wetaskiwin University conference of the Canadian Federation of Women's Institutes, held at Lacmunt on Friday, Dr. C. H. Baragar, president of the Canadian Federation of Women's Institutes, gave an address on "Mental Health," a subject of increasing interest to the gathering. Business proceedings took place, with Mrs. Ray Carter, Pooka director, presiding. In her address, Dr. Baragar, provincial president, gave a brief review of the upward trend of conditions in Canada, China, India, Africa and Russia, discussing relationships of these countries to Canada.

Mrs. Harkins of Clive gave an address of welcome at the convention, inviting the women to attend the U. F. W. A. conference to be held in Lacmunt on June 8.

Mrs. Archibald of Pooka, and Mrs. W. Ross, vice-president, were appointed on the resolutions committee. A resolution from Spring Valley was submitted in petition to the Department of Education to authorize the closing of schools for children in grades one and two, the first week in June, when their term work is completed. Continuing through the hot weather is detrimental to their health.

Mrs. I. G. Baker, member of the federal board of the C. C. F. organization, spoke on behalf of the C. C. F. organization, William Rust of Wetaskiwin, president of the Junior U. F. W. A. and who won the speaking contest at the recent convention, also spoke.

STRAWBERRY PARFAIT

On the berries, half and sprinkle with confectioner's sugar to draw the juice. Place two tablespoons of fruit and juice in each parafait. Top with whipped cream and a garnish of whole berries. If the first week in June, when their term work is completed. Continuing through the hot weather is detrimental to their health.

WIDE BRIMS

All smart Washington, D.C. women are wearing the caribee hat, including Mrs. Roosevelt, Secretary of Labor Perkins, and cabinet women in white.

ST. FAITH'S W.A.

At the meeting of St. Faith's W.A. on Wednesday, final plans were made for the garden tour on June 13, commencing at 8 o'clock. The tour will be led by Mrs. J. H. McDonald. There will be a social supper on Friday night, June 15, at 8 o'clock. Plans for the garden tour will be announced at this meeting.

Members of the Women's Canadian Labor Council will meet for social evening at the home of James East, 11220 9th Avenue, on Wednesday evening, June 13, at 8 o'clock. This will be the last meeting before disbanding for the summer months in the British Isles. The winter of the club will be announced at this meeting.

The Calgary alumnus club of Pi Beta Phi Fraternity and active members in the city entertained at a bridge on Wednesday evening at the home of Miss Hazel Wilkinson, Elbow Drive, when Miss Helen Thimothy, who is visiting in Calgary this week, was among the guests.

Here's a gay culture for the champagne blonde. The hair is flung back off the forehead except for a left part. This simple effect lends enchantment to the bubble-effect hair, which is really made of pearls with a very narrow strip of black velvet ribbon edging it off. Behind this the hair itself is curled into a ring and self up into many small, bubbling curls. The hair is left to show at the ends, low over the tops of both ears.

Boys and Girls

Local Guide Companies Are Holding Field Day

Girl Guides of all Edmonton companies will parade today at Victoria Park to take part in the annual field day. The rally will be featured by three presentations. The V.A.D. first aid club being presented to a team from St. Paul's; the first aid club being presented to another team from the same company. The Jackson club will be awarded to the company running up the greatest number of points in the field events held on Saturday.

Sports events, which will consist largely of races, will be run off in five sections. The first section will be the "District" races which will be run off at 2 p.m., to be followed by the "Divisional" races at 3:30 p.m. The first, second and third of each race are to run in the divisional finals.

Presentation of ribbons and cups to be followed by tea, will conclude the program. A colorful part of the program will be the "March Past" which is expected to be taken by Mrs. E. J. Perdue, divisional commissioner. Mrs. H. M. Newson, divisional commissioner, Mrs. J. H. Burdette, west end commissioner, Mrs. H. C. Hargrave, south end commissioner, and Miss Dorothy Murphy, east end commissioner, will be other guide officials present. The district captains who arranged the program and who will be in charge of events are: Miss Betty Martin, east end; Miss Owen Burns, west end; and Miss Helen Burns, south end.

Seona Hi-Volta, Hold Final Meet

Hi-Volta of Seona Baptist church held their final meeting for the season in the form of a supper, with Don McLeod acting as chef and connecting a race dish of spaghetti. Lorne Ingle spoke on the important events of the group's year. The supper was served in the hall on the plans that were being laid for the next season. As the group was composed largely of older boys it was suggested that it would be wise to form a number of junior groups with the older ones as leaders.

Don McLeod, Bob Currie and Leslie Vaughan, a supper trio, entertained with musical selections. The meeting commenced with the members, Lorne Ingle and Fred Currie, who directed the group through the supper. The group was composed of 34 girls. The Guide has been working on their class badge tests, but next Tuesday will see a cessation of activity. The girls of the Guide are holding its last meeting till next fall. The next member of the company are: Dorothy McKay, Dorothy Bowen, Percy Williams, Edith Ward and Marcia Davidson.

GUIDE NOTES

The Eleventh (Calgary Trail) Guide company, organized only this season, has made rapid strides under the leadership of its leader, Mrs. L. D. Rogers, and now boasts a membership of 34 girls. The Guide has been working on their class badge tests, but next Tuesday will see a cessation of activity. The girls of the Guide are holding its last meeting till next fall. The next member of the company are: Dorothy McKay, Dorothy Bowen, Percy Williams, Edith Ward and Marcia Davidson.

Incidents in Lives of Noted Canadians

By J. H. Mogrove

Major Crozier, R.N.W.M.P.—Makes an Arrest on Poundmaker's Reserve

They came, men, women, children—and dogs, from the reserves of Little Pine, Strike-him-on-the-back, Mosquito, Mosquito, Sidney and Bear Head, a motley crowd in paint and feathers, in blankets and mis-matched jackets to the Bear "Third Dance on Poundmaker's reserve."

There was revelry on the reserve. All night long the spectral light of a June moon in 1884, camp fire, planned and lantern-dimmed, reflected on the water of the lake, the walling chant swelled higher, louder and fiercer, to persons, desecrating cry, then to cease abruptly, making the stillness that followed all death itself.

One of the wildest and most widely in diplomacy, craft and treachery was Big Bear, who had come to hold the Third Dance. In one way or another he evaded the American cavalry and needed a place of refuge in Canada took up a reserve near Fort Pitt. As the months wore on, however, the inherited monad customs of roaming at will over the plains surged again through his blood and disatisfied with his lot, he moved with his following to Poundmaker's reserve on Battle River.

The Indian department did not favor the crafty chieftain's move to Poundmaker's, cunningly set for their encampment near Instructor Craig's quarters, and by guile and request had more than once asked of for food which was as often refused. This developed into a bitter enemy between the Indian agent and the intruders.

While the hollows rang to the drums and the war whoops, Big Bear's braves, bold and daring, entered the government storehouse and demanded food. Craig, being refused, they decided to capture the storehouse. Craig, being refused, they decided to capture the storehouse.

The incident was full of grave import. The Indian agent, who was in the midst of a crowd of funeral, howling savage was to invite fury and pandemonium. The chief was told about the assault, and the dance went on un-molested.

Next day Major Crozier determined to make the arrest at once if the culprit could be spotted. It had been reported that he was among the dancers the police enlisted the service of Craig and mingling with the throng pushed

for the police that the officers should have every chance of identification and of making an arrest. Reinforced during the night by an additional detachment from Battleford, Major Crozier took up his headquarters in Instructor Craig's residence, putting the shack in a state of defence, barricading the doorways, and making bastions of two corners with bags of flour.

The night passed in silence. Early next forenoon the uproar from the direction of the storehouse, the Indians were coming. Leaving a guard over the storehouse, they followed a strong following marched forward to "take the arrest. The Indians left their camp, and the following night a quarter of a mile away. Poundmaker and Big Bear came forward offering themselves as hostages, but their offers were declined.

Crozier drew fearfully closer to the encircling horde, and through Instructor MacKay called for the culprit to surrender, declaring that he would not suffer arrest. An instant accordingly, and that he would not be hanged for such an offence. "Step out and say that you are the man wanted. That will stand your trial. It will be over in a short time."

For a moment there was silence. Then with dignity and courage the brilliant night skills of the Mediterranean. So they named these moving stars "planets," which in the Greek meant wanderers. The planets were observed by mankind hundreds of years before Greece, but it is from the Greek that we have obtained the word "planet."

These wandering planets, together with the minor planets and satellites, make up what is known as the solar system, the family of celestial bodies revolving in elliptical orbits around the sun. It is not impossible that other solar systems exist in other systems, just as much as the "fixed" stars which we see are but other suns and may be the centres of similar systems. However, is a matter of speculation.

HOW TO IDENTIFY
The planets, or rather those close enough to the earth, can be identified by the naked eye. The stars, on the other hand, are not so easily identified. The planets, on the other hand, are not so easily identified.

The planets, on the other hand, are not so easily identified. The stars, on the other hand, are not so easily identified. The planets, on the other hand, are not so easily identified.

Greeks Gave Us Name For Planets

—SCIENCE SIMPLIFIED—
Ancients Designated Moving "Stars" as "Wanderers"

The Greeks had a word for it! Their astronomers, men of science, gazing at the heavens, noted that some stars remained "fixed" while others seemed to pursue a regular course among their fellow stars, and by the latter name, the wandering stars, they designated the planets. So they named these moving stars "planets," which in

Latin, Uranus and Neptune. Six of these were known to the ancients, the last two, Uranus and Neptune, having been discovered in modern times. Stars, as we know them, were first named by the Greeks. Hipparchus, a Greek astronomer, was the first to name the stars. He named them after the Greek gods. The stars were named after the Greek gods. The stars were named after the Greek gods.

There is a no end to the possibilities of growth, and to get this growth must become air-minded, and by actually getting into the air help greatly in its advance. It should be another boost for aviation and try to help our little airplane world get on its feet.

Three Writers Of Prize Essays To Get Free Ride

Here they are—the winners in The Bulletin and the Edmonton Northern Alberta Aero Club's essay contest, "Why I Should Learn to Fly," who have earned for themselves a ride in one of the club's speedy motor airplanes.

Although the judges were unanimous in their decision, they agreed that the large number of quality essays submitted in the contest proved that the younger generation were surely "air conscious." Judges in the contest were: Capt. C. H. "Punch" Dickens, Capt. Maurice Burdette and Chester Moffet.

The winners:
Miss Beatrice Daily, 16, suite 14 Douglas Block, Edmonton, winner of the section open to girls 15 years of age and under.

Written by Mirvin Nelson, age 16. Canadian aviation has made great progress in the last few years but it has not by far attained the heights of that in other countries. What aviation in Canada needs is growth, and to get this growth must become air-minded, and by actually getting into the air help greatly in its advance. It should be another boost for aviation and try to help our little airplane world get on its feet.

Written by Beatrice Daily, age 16. I should learn to fly because I am a Canadian boy and in future transportation will be made mainly by air.

Haldane Has Fascinating Survey of Canada Future

SCIENTIFIC ERA

RUN BY YOUTH, SAVANT AVERS

Everyone likes to peer into the future. A dramatic and stimulating picture of Great Britain, with British Columbia and Canada playing their part, in the third of the Twentieth Century, is drawn in the following article by J. B. S. Haldane, eminent British scientist. One-third of a century has gone by. The next third, ending in 1967, is the subject of Prof. Haldane's fascinating survey in the London Daily Express.

The next 33 years will see the babies and kindergarten children, and the Youth of today, in charge of affairs. What changes will they make in this second third of the century?

It will be an era, says Prof. Haldane, when:

- 1—There will be the scientific state.
- 2—Every child will be under health service from nine months before its birth, and motherhood will be a "well-paid, honored profession."
- 3—Children will be selected for occupations during education.
- 4—People will be working at chosen vocations at 20, with three months' annual holiday.
- 5—Everyone medically inspected twice a year.
- 6—No more unemployment, but extra holidays.
- 7—Less restrictions on personal liberty than today.
- 8—Cities built larger, bomb-proof and gas-proof.
- 9—Scientists exploring interior of earth.
- 10—Other scientists planning rocket trips to the moon.

All these things, says Prof. Haldane, are possible, and may come to pass in Britain or one of the dominions.

"And if they do not, it will be our fault."

Here is his prophecy:

What is going to happen in the second third of the twentieth century? I do not know. But I am much happier for not knowing.

Even although it is no longer custom to state prophecies, I am a technician job. I have exercised this occupation often and on since the war, and have often been asked to state the future of the world. Still I can take credit for prophesying in 1910, the time of agriculture as the result of a world over-production of food, and a few winners in this article.

To Englishmen in 1967, the first third of the century, including the first world war, will look like a golden age of peace and plenty. Every year the application of science to industry and agriculture will make production easier and so tend to lower prices and increase employment.

Governments and trusts will be fighting the monster unemployment by destroying crops and shutting down factories. The result will be a world of keeping production busy by seeing that every citizen is properly fed, clothed and housed.

Our own will comprise, giving us the head and tail of the century, and I do not expect to see a great fall in our standard of living when the British Empire arrives on the scene.

Every one is medically inspected twice a year by one of the 25,000 doctors, and most diseases are prevented.

Medical and common colds are isolated like smallpox today, and many people go through life till they without a day's illness.

In a hospital for heart disease, you see patients whose hearts have been replaced by artificial hearts, and the patients breathe through artificial lungs while their own are inflamed.

There is no more unemployment. Labor-saving invention means an extra day's holiday, or the release of more labor for teaching and amusement. Most people live in large blocks of flats with meals in a restaurant or automatic kitchen from a mechanical kitchen.

More liberty

There is far more liberty than today. Most of our restrictions are the result of prejudice with no scientific basis.

Provided you do not interfere with production or spread disease, your space time is your own. Politics are a matter of finding out what people actually want, and then making it so.

We grow about half our own food, and with three years' reserve of wheat and machinery available for converting wood-pulp and paper into anything we can be able to supply ourselves in case of war.

Our cities are built largely below ground level, and we have millions of men trained in the use of the machine.

Such is life—By Walt Munson

that the glory has departed, and life is a poor game.

Now for the other side of the picture.

Somewhere in the world, by 1967, I think there will be a scientific state.

Here is a picture of life in a scientific state, the third third of Britain will look like a golden age of peace and plenty.

Every child from nine months before its birth is under the care of the health service, and motherhood is a well-paid and honored profession.

Children will be selected for occupations during education. People will be working at chosen vocations at 20, with three months' annual holiday.

Everyone medically inspected twice a year. No more unemployment, but extra holidays.

Less restrictions on personal liberty than today. Cities built larger, bomb-proof and gas-proof.

Scientists exploring interior of earth. Other scientists planning rocket trips to the moon.

All these things, says Prof. Haldane, are possible, and may come to pass in Britain or one of the dominions.

"And if they do not, it will be our fault."

Here is his prophecy:

What is going to happen in the second third of the twentieth century? I do not know. But I am much happier for not knowing.

Even although it is no longer custom to state prophecies, I am a technician job. I have exercised this occupation often and on since the war, and have often been asked to state the future of the world.

Still I can take credit for prophesying in 1910, the time of agriculture as the result of a world over-production of food, and a few winners in this article.

To Englishmen in 1967, the first third of the century, including the first world war, will look like a golden age of peace and plenty. Every year the application of science to industry and agriculture will make production easier and so tend to lower prices and increase employment.

Scientist

PROF. J. B. S. HALDANE

mechanics behind them. We shall have nothing to gain from war, and a few organized state will have everything to lose by attacking.

Scientific research is the growing point of our national life. Besides the quarter-million professional scientists, who are mostly employed in the service of industry, many people spend their holidays in a laboratory or plant breeding as their hobby.

For the great volunteer organization is exploring the depths of the earth, and has just got down 13 miles. Another is planning the first rocket voyage to the moon.

All these things, says Prof. Haldane, are possible, and may come to pass in Britain or one of the dominions.

"And if they do not, it will be our fault."

Here is his prophecy:

What is going to happen in the second third of the twentieth century? I do not know. But I am much happier for not knowing.

Even although it is no longer custom to state prophecies, I am a technician job. I have exercised this occupation often and on since the war, and have often been asked to state the future of the world.

Still I can take credit for prophesying in 1910, the time of agriculture as the result of a world over-production of food, and a few winners in this article.

To Englishmen in 1967, the first third of the century, including the first world war, will look like a golden age of peace and plenty. Every year the application of science to industry and agriculture will make production easier and so tend to lower prices and increase employment.

Governments and trusts will be fighting the monster unemployment by destroying crops and shutting down factories. The result will be a world of keeping production busy by seeing that every citizen is properly fed, clothed and housed.

Our own will comprise, giving us the head and tail of the century, and I do not expect to see a great fall in our standard of living when the British Empire arrives on the scene.

Every one is medically inspected twice a year by one of the 25,000 doctors, and most diseases are prevented.

Medical and common colds are isolated like smallpox today, and many people go through life till they without a day's illness.

In a hospital for heart disease, you see patients whose hearts have been replaced by artificial hearts, and the patients breathe through artificial lungs while their own are inflamed.

There is no more unemployment. Labor-saving invention means an extra day's holiday, or the release of more labor for teaching and amusement. Most people live in large blocks of flats with meals in a restaurant or automatic kitchen from a mechanical kitchen.

Nazi Reported Worried Over Parley Planned at Berlin

BERLIN, June 9.—The fifth world Baptist conference, to be held in Berlin during the first part of August, promises to place before the Hitler government a test case in the matter of plain speech. It is understood German Baptists feel considerable anxiety because of the presence on the conference program of the subjects of race prejudice, extreme nationalism and militarism.

A commission has been appointed to investigate these questions, and its reports are intended to form a basis for discussion from a strictly Christian point of view.

Since the head of the German Baptist church will preside and the delegates will be guests of the German Baptists, the latter will be in a rather embarrassing position, as the reports are likely to be expected to fit in with official Nazi doctrine. Moreover, any public attack on National Socialist principles must inevitably seriously embarrass the German people.

It is reported that the German Baptists have decided to elect a "leader" in National Socialist style, and to abandon their youth organization, the Young Baptists. Many have received the alternative of disavowing their youth organization or its absorption into the Hitler Youth under the name of the Young Baptists.

According to a well-supported report, Dr. Jakoby, one of the most prominent of the German Baptists, has been offered a position of honor in the members of his Reich church government for issuing an official statement of his church.

The German Christians had placed a picture of the late Hitler on the altar of a Berlin church.

Some weeks ago, when Dr. Muel, a member of the church, was supposed to deliver a sermon, he was told that the picture of Hitler was to be removed from the altar.

For the time being the struggle in the church is between Dr. Muel, trying to break down the stronghold of the opposition, and the church government, which is trying to use a new constitution for the whole Reich.

When they do meet they are expected to form a constitution of their own, on which to base an appeal for recognition as the official church of the Reich.

The author has thus far remained fairly neutral in this struggle, but in Württemberg a temporary prohibition has been made for the clergy and lay members of the church to meet.

Protestant Charles Becker Friday stated that the case had been interfered with the distribution of leaflets in Westphalia by members of the League for the Protection of the Faith.

TURKEY HEN PROVES SHE CAN TAKE IT

PROVOST, June 9.—Ed. Farquhar, of his farm at E. Farquhar, has a turkey hen, that he thought it a disreputable bird to look at today. Last night, however, he was called to the egg and, turkey-like, devoting his attention to the hen.

The brooder house under his care was being built, and was totally destroyed by him with unconscious hen, the turkey hen refused to desert her charges and stuck tight to the nest until the feathers on one side of her had been burned off.

Finally blinded on one side, and minus feathers, she decided that discretion was advisable and retreated from the flames.

Bravery deserves recognition wherever found, and Ed is hoping the bird will recover from the effects of her injuries.

Salvation Army Officer Killed In England Lived Here

That Kenneth King, Salvation Army worker who was killed Wednesday in a motor car accident in Norway, was in charge of the Strathcona office of the Salvation Army, said Major W. J. Carruthers, Divisional Commander of the organization for Alberta when he was killed.

Ex-Premier May Form New Cabinet

Marshall Alexander, a former premier, who is said to have agreed to form a military cabinet which will rule Roumania, is the supposed plan of King Carol goes through, Carol's plan was to place his country under a military government similar to that imposed upon Bulgaria by King Boris, last week. In preparation for the coup, it is reported that King Carol has already left the country. His departure was said to have been one of the conditions under which the veteran diplomat and soldier would attempt to form the new cabinet. The Tataruscu ministry, now in power, is expected to resign shortly. It plans material, Roumania will become a dictatorship, Roumania will become a dictatorship, Roumania will become a dictatorship.

DISCOUNTED AT DRUMHELLER

DRUMHELLER, June 9.—William Gibson, thought at one time to be a victim of arsenic poisoning, died of pneumonia and ruptured appendix according to reports received here. Dr. L. M. McLaughlin, Calgary pathologist, Dr. Nelson of the University of Alberta, and Dr. J. M. Gibson, were discharged from the hospital, and a local physician, Dr. J. M. Gibson, was appointed to the post.

While no details were heard by jurymen Friday night at a coroner's inquest, the coroner, Dr. J. M. Gibson, was appointed to the post.

When they do meet they are expected to form a constitution of their own, on which to base an appeal for recognition as the official church of the Reich.

The author has thus far remained fairly neutral in this struggle, but in Württemberg a temporary prohibition has been made for the clergy and lay members of the church to meet.

Protestant Charles Becker Friday stated that the case had been interfered with the distribution of leaflets in Westphalia by members of the League for the Protection of the Faith.

Proposed Domestic Optional Gas Rates Give Users "Break"

Owners of Small Houses
Will Benefit by Reduction
of Over 11 Per Cent.

Edmonton gas consumers are due for a "break" if the proposed new optional domestic rates now in the hands of the city for consideration is approved.

The new rate, arrived at after a comprehensive survey of the needs of gas consumers in Edmonton made by outside experts who were specially brought in to assure that local knowledge would not creep in to interfere with the efficiency of the survey, gives owners of small houses who use gas for heating a reduction over the year of over 11 per cent, while the owners of big and medium houses who use gas will see a reduction of a little over 10 per cent.

Carrying out the survey the experts took 150 houses at random throughout the city. Houses in the west end, east end, south end, Garneau, Hillcliffs, Norwood, North Edmonton, and the downtown areas were included in the survey, and a real "cross-section" of the gas consumption of the city was obtained.

The result, compared with the existing rates, shows that in every instance the gas consumer, had he been under the proposed optional rate now in the hands of the commissioners, would have saved from 10 to over 11 per cent on his gas bill.

The new rate is fixed on the cubic feet of heated space in a house, but there is a fixed charge of 75 cents for each consumer. The new rate is 15 cents a thousand cubic feet of heated space, to which is added a consumption charge of 25 cents a thousand for gas used.

HEATED SPACE
Heated space is arrived at from the inside measurement of a building, including partitions and doors. Basement and attic or portions of them will only be included when occupied as living quarters.

When repairs are needed through the heater more than 50 per cent of the gas bill will be added.

The total heated space will be taken from the latest municipal 1,000 cubic feet.

As typical of the way the new rates will work out the following examples have been taken at random from the 150 all-Edmonton surveys which made up the survey.

C.P. Chief To Visit City Today

C. Coleman, vice-president of the Canadian Pacific Railway, accompanied by a number of officials, will arrive in the city today.

The party will leave for the east via Lloydminster at 10 a.m. Sunday and will be accompanied by J. H. Chow, vice-president of the Edmonton division.

V. G. R. Vickers of Montreal is a member of the party.

**EDMONTONIANS
JOIN H.B. CO'Y.**

Five Edmonton youths will leave here, on four Tuesday, and on the following day, to join the 13th all-Edmonton battalion in the North-West Territories posts of the Hudson's Bay Company.

Those leaving on Tuesday are John Kenneth Schur, 1025 10th street, west, and John McPherson, Stanley Frederick Dean, 6458 48th street, west, and John McPherson, 1025 10th street, west.

Those leaving on Wednesday are Laurence Smith, 1025 10th street, west, and John McPherson, 1025 10th street, west.

Another young Edmonton man, Howard James Morrison, 967 10th street, has been sent to McMurtry to open the company's butcher shop.

Very little attention need be given the generator and starting motor, as they are true today to a few drops of good oil at regular intervals.

**Civic Government Association
Annual Meeting**

The annual meeting of the Civic Government Association will be held in the Y.M.C.A., Edmonton, on Tuesday, June 12th, 1934, at the hour of eight o'clock for the purpose of electing an Executive for the ensuing year.

Immediately following the General Meeting, a meeting of the new Executive will be held to elect officers and a Management Committee.

All those interested, whether past members or not, are invited to be present.

Gleaned From Today's News

Edmonton Public School board will hold a special meeting Tuesday, June 12, at 8 p.m. in the board room, 510 Civic Block.

The Alberta Motor Association held its annual meeting at the Hotel Vancouver, Vancouver, B.C., last night.

Closing valued at \$15 was stolen from Charles Burrows, car, a victor to the city from Canmore, when the auto was parked on 103rd street north of Jasper between 8 and 9:30 p.m. Friday.

A 1926 Buick sedan, license number 57-81, stolen last Friday night from its parking place in front of the city hall, had not been recovered by police at press time Saturday. Thomas Bourne of 12148 103rd street, is the owner.

Saturday was the closing date for registration of unemployed ex-servicemen, this registration being sponsored by the Canadian League of E.S.I., in an attempt to ascertain the number of jobs returned unemployed in the city and the work they are capable of doing.

Following are the larger permits issued recently by the city building department: Nick Eklund, electrician at Calder, \$200; R. L. Greene and Co., alterations and remodeling of duplex at 1040 115th street, \$200; R. L. Greene and Co., alterations and remodeling of duplex at 1040 115th street, \$200; R. L. Greene and Co., alterations and remodeling of duplex at 1040 115th street, \$200.

Seeking further improvement for the hamlet of Lacombe, the city council is considering a more adequate sewerage and police protection, a committee of summer residents at the Lacombe decided at a meeting held at the city hall, that they would urge the municipal district of Strathcona to consider the hamlet of Lacombe, to spend 50 per cent of all taxes collected on improvements.

The following members were present at the executive committee meeting: William Weaver, chairman, C. S. Kilgus, secretary, J. Bernhart, William Sato, R. C. Day and Harry Heath.

The committee will drill a well at Fulham Park in order to increase the drinking water supply. The question of better fire protection was also discussed, with the committee recommending that a fire alarm be installed in the city.

Such equipment would cost in the neighborhood of \$10,000. The city was referred to Mr. Barnard for a report.

Ken Dawson, bricklayer: "Should the government go after the lawbreakers who run small chiseling sweeps I would be in complete agreement. The larger stacks that everyone knows are on the level, ought to be left alone."

Abie W. Miller, barrister: "I think it is an error on the part of the government to get into the existing section 102 of the Criminal Code dealing with the collection of the prize through sweeps. It is nothing short of a scandal."

Not only did the unknown get away with his sidewalk—40 feet long and 12 inches wide—he took his garage, pinched his two axes, cut up the walk into four sections, piled it into a truck and drove away. Friday afternoon. Police are looking for them.

A new type of inner tube, now being built, incorporates plastic in the rubber, and is made of a tube wall as a means of automatically sealing any puncture.

I Saw Today

At the regular meeting of the Alberta Ladies' Association, 388, Ladies' Society to the Brotherhood of Locomotive Engineers and Firemen, it was decided to join the members of the ladies' auxiliaries and the running train in a memorial service to be held in the First Presbyterian church, Sunday, June 17, at 7:30 p.m. Plans were also made for a picnic to be held in the South Side park on July 2.

Twenty-seven cases of communicable diseases were reported to the city health department this week, compared to 31 cases last week. According to a report prepared by Dr. R. B. Jenkins, medical officer of health, Classification of diseases follows, figures for this week and last week being given in that order: chickenpox, 5; measles, 0; 1; diphtheria, 1; 7; whooping cough, 11; 7; erysipelas, 1; pneumonia, 1; 0; tuberculosis, 0; 1; 1.

Pilot Ernest Kubeck of the Edmonton and Northern Alberta Aircraft Club, who is flying a biplane, was with a broken prop to his machine and will have to wait until a spare part is taken to the city hall, where it is being repaired.

Charles Miller turning north on McDougall avenue from Jasper, Harry Bagwell heading north on 103rd street, and the army was a friend at Jasper in the 102nd.

H. F. Madsen driving east along the western end of 100 avenue.

E. A. Holbrook giving a couple of friends a lift across the high level bridge, Bill Spaulding driving east along 115 avenue toward North Edmonton, Jack Hines, a young man, driving north on his home near, Charlie Miller turning north on McDougall avenue from Jasper, Harry Bagwell heading north on 103rd street, and the army was a friend at Jasper in the 102nd.

**F. J. RYMER DIES
AT HOME FRIDAY**

Frederick Joseph Rymer died at his home, 1848 street, on Friday at the age of 73 years. Mr. Rymer was born in England was manager of the Rymer company here for many years. He was a well-known London publishing company after selling out his interest in the Rymer company here. He was a well-known London publishing company after selling out his interest in the Rymer company here.

He is survived by his wife, two sons, J. H. Rymer and Mrs. D. J. Connelly, both of Edmonton, and three sisters, Mrs. J. H. Rymer, Mrs. J. H. Rymer, and Mrs. J. H. Rymer.

The funeral will be held Monday, at 2:30 p.m. from Andrew's funeral home, 112 street, Rev. Dr. A. B. Olson of the First Presbyterian church officiating. All members of the Optimist club are requested to attend the funeral.

A pound of butter which he stole from a downtown grocery store Friday afternoon cost John R. Tye, 530 of the 530's his job on his pension when he was in the force.

The accused took two pounds of butter from the store last week and paid for one, concealing the other in his pocket. When he stepped from the door he was caught by a store detective.

\$207.50 was found in his pocket, Joseph Clark, defense counsel, was finally able to get the jury to acquit the accused but that he was charged with the theft of \$207.50.

There's no evidence of that, was the dry comment of Magistrate Col. P. H. Primrose.

Reading with the court he found a fine rather than a jail term, the accused stated.

He has been pretty hard for a long time. It is difficult in making a case out of a case, Col. Primrose took a hummer, a view of the case.

His usual common sense in finding "visible means of support" in the judgment of his wage-earner case, was Victor Elmer, a "foster" out of the city.

Since he was arranged Tuesday, when he entered a plea of not guilty that resulted in a fine rather than a jail term, the accused stated.

He planned July Saturday morning, Prosecutor Becker asked the court to give him a break.

Harry Polio lost a charge of theft of \$15 worth of battery metal and was dismissed yesterday after leaving his story that he found the metal in the roadside three miles north of Wetaskiwin.

Allured to have been Mrs. Ann O'Donnell on the head, Nick Sawchuk was given an adjournment to June 18, entering no plea.

Tuberculosis Clinic
The Tuberculosis Clinic will be held on June 21st, as scheduled, beginning at 10 a.m. to 5 p.m., on July 5th and 19th.

M. H. How, Deputy Minister of Health.

**Spectator Run
Over By Auto**

Run over by an auto while he was lying on the grass in the street, a man was killed by a car on 103rd street, west of 100th street, was removed to the metropolitan hospital with a broken leg at 6:30 p.m. Friday.

The victim was lying at eye level in the game when the car, a 1928 Buick sedan, driving his car in the parking place on the high park grounds, failed to notice the person lying on the grass.

X-ray plates may be taken through steel plates several inches thick.

WANT GRAVEL HIGHWAY FOR ST. PAUL AREA

Delegation, Headed by A. T. Brousseau, Interviews Minister

Pointing out that the St. Paul-Bonnyville district was one of the most thickly populated farming districts in the province and was yet the farthest from gravel highways at any section outside of the Peace River area, a delegation, headed by A. T. Brousseau, president of the St. Paul Chamber of Commerce, met with Hon. C. G. McPherson, minister of public works, Friday, June 15, at the St. Paul-Bonnyville-Gold Lake highway.

Mr. McPherson, in reply to the delegation, said he was sympathetic with the request, but pointed out that the St. Paul-Bonnyville-Gold Lake highway was a very important highway and was being improved for gravel work in the near future.

Mr. Brousseau pointed out that the St. Paul-Bonnyville-Gold Lake highway was a very important highway and was being improved for gravel work in the near future.

B.C. SPECIAL POWERS ACT NOT WEAPON

Pattullo Promises Co-operation With Ottawa Regardless of Politics

VICTORIA, June 8.—The government of British Columbia has not yet been called upon to use the Special Powers Act and he did not know whether it would be used, Premier T. D. Pattullo said yesterday in an address to a combined meeting of the chamber of commerce and a number of other Victoria bodies.

Conditions had changed since the B.P.A. was passed, said the premier. It was never meant as a weapon against Ottawa or some people had hinted.

Forces are at work which eventually will force a revision of financial and economic methods in Canada, said the premier at another point. "The Dominion government will have to proceed along different lines than it is now, although its present policies may be quite sound," he said.

BOME WANTED 'SHOWDOWN'

Some people would have liked to have a 'showdown' at Ottawa when we were there, but I don't forget, the Dominion had laid down a policy of protecting the financial and political interests of the province from beneath the nation's cloak.

British Columbia is going to pay too much on the dollar and other obligations. But we do believe interest charges are too high. Canada has been awaiting crystallization of policies on the other side of the line and now it is apparent that events are taking shape at Ottawa.

CROPS LOOK WELL

LLOYDMINSTER, June 8.—Crops are looking well in the Lloydminster district, following showers which have fallen here during the past two weeks.

The flying fox, a giant bat of Australia, is so large that it has a wing spread of five feet.

Furnace Needs Care In Springtime To Avoid Rust And Corrosion

Heating Plant Should Have Attention To Prevent Damage

After a winter of stoking, and of struggling to keep the house warm, most people are so sick of the heater when spring comes that they are only too glad to forget it. But that can be understood; but at the same time, there is no getting away from the fact that rust and corrosion can do more damage to a heater in one long summer than will happen in several winters of use.

A penny in the pocket, and certainly a means of satisfaction, to spend an hour or two at the end of the heating season in putting the plant in shape to pass the summer months without injury.

Trouble comes in the dampening of dirt inside the heater and in warm air pipes by the moisture-laden air. The air of spring and summer is damp, and in being cooled by contact with the metal of the heater, the water condenses and is picked up by the rust and scale.

As the rust contains sulphur, there is corrosion from the mild form of sulphuric acid that is formed. This will corrode the joints of a heater; it will rust the smoke pipe and warm air pipes.

KEEP BOILER DOORS OPEN

Beside this, the draft in a chimney is at its constant during the idle season as during the winter; a continual flow of air is being sucked up the chimney.

When the boiler doors are closed, the air will pass through the heater, and the heater doors shut, and will be heavy condensation, and so much rusting that the doors may be ruined.

To lay up any kind of heater, the smoke pipe should be taken down, and stored in a dry place, and the boiler should be drained, the pipe should at least be thoroughly cleaned inside.

Whether or not the smoke pipe should be left standing open through the summer, so that air can have free access to all parts.

SPRAY INSIDE WITH OIL

The inside smoke passages and other parts of a steam or hot water boiler, or a warm air heater, should be thoroughly cleaned of all rust and dirt deposits.

In addition, the inside should be sprayed with oil.

Donna (GABRIEL) comes from the farm and the trapline and is a mother. Her mother, MADAME SINDAL, Donna goes to school here to acquire, pretending to be the other girl. She is a student of the deception.

It is, even when LILL SINDAL, Madame's daughter, has her to meet him. Donna and Donna are married.

sprayed with oil. Any kind of oil will do, crank case draining, for one. The oil is applied with a household insect sprayer, or with a brush.

A year or two after installation, the boiler should be drained, and the water should not be drained, for having been heated many times, it is free from scale and from air that causes corrosion.

KEEP WATER IN BOILER

In laying up for the summer, water should be added to a steam boiler until it runs out of the safety valve; in the autumn, only enough is drained off to bring water to the level of the level glass, which is usually half-way up the water glass.

A hot water system, summer as well as winter, should be kept filled to the proper point.

With a warm air heater, pipes not cleaned inside, they will rust longer if stored in the attic or other dry place over the summer than in the house, where the air is moist.

The bright parts of an outside pipe, and the machine covered with heavy cloth or paper to keep it from rusting.

An inside oil burner should be covered with heavy paper.

Donna of the Big Top

By REULAH PAYNTER

BEGIN HERE TODAY

DONNA (GABRIEL) comes from the farm and the trapline and is a mother. Her mother, MADAME SINDAL, Donna goes to school here to acquire, pretending to be the other girl. She is a student of the deception.

It is, even when LILL SINDAL, Madame's daughter, has her to meet him. Donna and Donna are married.

ANON SINDAL, Madame's grand-daughter, has a stroke.

MOORE'S BRING MACE INTO CANADA

Historic Bauble Taken at York in 1812 Given Back by U.S.A.

UNIONVILLE, June 8.—Sixteen uniformed Royal Canadian Mounted Police will leave here on Saturday for Portland, Ore., where they will receive the mace taken from the parliament of Upper Canada at York by American troops during the war of 1812.

The Mounted Police will bring the mace back to Canada and in company with British troops, the officers return it to the Ontario government.

With the R.C.M.P. detachment will go some 400 multi-colored members of the Canadian Legion headed by President Brig. General Alex. Macdonald, of Vancouver, and Sir Percy Lake of Victoria, Grand President. They will attend the convention in Portland of the British Columbia Command of the Legion June 11-14 the first one ever to be held outside of British territory.

Planter would have felt more sympathy for Bill when he learned that the mace had not been a party to such a Godless deed.

She waited until the man and woman had gone on about 50 yards. Then she grabbed the little folds of her coat about her and began to run.

That lady Jane had started supper for the old kid to pay for the mace. It was plentiful that Mrs. Planter wanted in chance losing her life, she was doing her duty to the community.

The mace would have found out where Madeline and that circus fellow went after they left the mace. It was a matter of time.

Donna and Con passed no way on their way to the car. Donna climbed in and unlocked the engine, then held out her hand. "Let's part friends, Con. For the sake of Madeline, I know you didn't mean what you said back there."

"I'm gone with you, be answered, ignoring her outstretched hand. "I've never come to any sort of decision."

"There isn't any to come to. You feel you're going to do what you want on the engine and with a spitter the car going forward. "I'll drive you to the car of the square. Then I'm going home."

"I wouldn't let the old man to change his will."

"Yes," Donna continued. "She accused me of laziness and I discharged her."

"Blasphemy," she said. "It was natural for her to think that. What's it?"

"Not of the liked me and accepted my word that the person who was married that day was another woman. She knows you are in town and she's not going to let you go."

"She's got it! I think you're wrong without any cause. It's dollars to doughnuts that want an extravaganza but someone taking a short cut through the graveyard."

"Where's your car?"

"I left it on a side street not far from here. We'll have to walk around past the front gate, though."

Con succeeded her aim to reassure her and her anxiety was evident. She did not notice the cars. Nor did she notice the cars. Nor did she notice the cars.

Con succeeded her aim to reassure her and her anxiety was evident. She did not notice the cars. Nor did she notice the cars. Nor did she notice the cars.

Derreen's Chicks Come To Rimby

RIMBY, June 9.—F. J. Grief, a farmer of the Lockhart district, 10 miles south of here, purchased 30 purebred White Leghorn baby chicks this spring from Agassiz, B.C. These new chicks are all related to the world's champion hen, Derreen, of M. Whiting's broiler flock.

RIFLE MISHAP IS FATAL TO YOUTH

TWATWAIN, June 9.—Joseph Sparrow, 21, was found in the woods Tuesday, half a mile from his home, five miles north of here, shot through the head when the rifle which he was using, accidentally discharged last Sunday.

Coming out to shoot woodchucks Sunday, he did not return, and his mother, who was looking for him, did not start to search for him until he was found.

Corner Dr. C. A. Miller of Westlock, following examination, declared no injury was necessary. The funeral was held at the Sparrow home on Thursday and will be held in the Rochester cemetery.

Max King, Harold Sutton, Make Fine Showing In Close Race

Quitting their opponents by nearly four to one, Clayton McLeNNan's Grigs could only edge out a close 2-1 victory over Vic Horn's Arrow Bats at Renfrew Park last night to draw one step nearer the league leading North Edmonton

Inter-club tennis play took another step forward on Friday evening when senior division teams swung into action. Some hard, closely-fought matches were played and in all cases winners were forced to reap their pretties to forego

Rated the most powerful charged forces of the Commercial Grade international championship ever to cross the border, Tulsa Sloggers, of Oklahoma, arrived in the city Friday to prepare for the start of their title series with the locals at the arena tonight. Play will start at 8:30 o'clock, sharp.

After being brought here for one game a week ago, Eric McCready, the pounding ball batter, will return to the Cubs line-up tomorrow in time for the season, according to Manager Al "Lefty" Smith. "No other player to perform here has the popularity with the fans that McCready possesses and, if he's back as expected, there will be a real winner for him."

Strong support behind Russell "Bugs" Wynn gave that twirler his first victory while Steve Blackburn was nicked for eleven safeties in the fourth inning getting the only run while the Grigs squared the count in the eighth and only one out and two on base. The game was called immediately after the winning run.

The feature of the evening's play was the tie between the strong C.N.R. club and the Glensia No. 2 squad, which the former won by three matches to two.

Labored under the handicap of losing their game, Mabel Munro, through the automatic accident Thursday, Grads will be fighting their bid to avenge the defeat of the southenders and a great game is expected.

Tom Green, who has just recently returned from the coast information. He reports that John Russell, co-president of the Dominion Football Association, and now a member of the league through Imperial Oil, is on a trip to Honolulu recuperating after a nervous breakdown.

Wynn's support was in evidence in the boys' 13 and under, 10 yards. With that time he took the lead in the first half. The thrilling climax of the evening was in the boys' 13 and under, 10 yards. With that time he took the lead in the first half.

YORK TEAM VICTORS OVER RED SOX BY 9-5

AMATEUR RING ARTISTS GOOD IN CARD HERE

Benefit Show Produces Large Amount Action Last Night

Boxing bouts and four of wrestling, consisted of some of Edmonton's leading amateur ringmen, completed one of the best amateur shows here for some time. The card was presented by the Boxing Association in order to raise funds to send four local ringmen to Montreal to compete in the Canadian trials for the British Empire Games to be held in London in July. Feature boxing bouts of the evening were those of Louis Laviole who scored a decision over Steve Striegl of Westwood, and Johnny Blacklinger who outpointed Paul Matvienko. These heavy hitting battles put up a pair of clever exhibitions and provided a plentiful amount of action for those in attendance.

LAVOLE VICTOR
Laviole easily outpointed Striegl although the latter proved himself well able to take punishment and in return give a fair amount back. Blacklinger, provincial lightweight champion, and Matvienko were evenly matched although the provincial champion showed himself superior to his rival from the southern city.

ACTIVE PUNCHING
Freddy Zurek and Billy Pollard gave an active exhibition of boxing with Pollard getting the decision.

Joe Gucklinger, brother to Johnny, was outpointed by John Donald in five bouts at 125 pounds. Jack Jimmy Collier and Don Carver, Stoney Road, gave the remaining boxing bout with Collier getting the last round.

The first wrestling bout was given a quick decision when Doc Ladd defeated Parker by a foul. Jimmy Parks won a close decision over Frank Goodman in the second bout.

McLean, the western amateur champion, who will be battling for Dominion honors at Montreal and a pair in England, defeated Jack Jackson in two straight falls. The big, well-known fighter showed himself superior to his lighter foe and had little difficulty in pinning Jackson in the mat.

British army and navy student pilots who hold their bombing practice indoors, the first pit in a stationary plane and a picture of the ground as it looks from the air, were under him. When the bomb release is operated, a device records the exact spot the bomb would have landed if dropped from the air.

Famous Racers Enthuse Over Plymouth Springing

Billy Arnold and Harry Harris, dare-devils of the speedways and national heroes in many thrilling races, discuss the distinct advantages of Plymouth's individual front wheel springing. "This distinctive Plymouth method of springing will lessen the physical strain of a 500-mile race and materially reduce the wear and tear on the car," Billy is saying to Harry after they had tested the car over almost impassable roads.

WINNERS ADD TO BIG FIVE LEAGUE LEAD

Coughlin, James, Nieuwchase are Heavy Hitters in Friday Fight

Outlining their opponents' (throughout, York Hotel's) pounding ball leaders further increased their lead in the Big Five League. Nieuwchase last night by blasting out a 9-5 triumph over Empire Hotel at Doyle Street. The victory placed York Hotel 2 1/2 games ahead of the second place North Edmonton club.

Coughlin, James and Nieuwchase were the leading batters for the winners each getting extra base hits. Coughlin, who got three extra base hits, blasted the Empire Hotel for a triple at first base while the Nieuwchase belted out a two-base blow.

The winners started out in impressive fashion with two runs in the second, four in the third, two runs in the fourth and completed their total in the seventh with a single run.

Empire Hotel Sox were held scoreless by Nieuwchase's pitching. The winning run was scored by V. Lamm for four runs in the seventh but could not overcome the large York lead.

The Outstanding NEW VALUE in the HALF-TON Field

TODAY, everywhere, International Trucks for light and fast duty are giving an exceptional account of themselves in low-cost performance and lasting reliability.
NOW we announce the New Half-Ton Six-Cylinder Model C-1, a finer product of International truck engineering, styled for the popular demand. The striking beauty of line in this new truck is only its most obvious feature. On the job, and as time goes on, its unseen qualities of rugged sturdiness will come to the fore. We promise you the extra factors of durability that we know a truck must have. International Harvester has learned this vital lesson in many years of building trucks for service.

Is lasting, superior performance important to you? Then let us demonstrate this new Model C-1. We want you to see it and drive it. Other International, 1/2-ton to 7 1/2-ton. Come in, or phone us.

EDMONTON, ALBERTA, JUNE 9, 1934.

THE CURIOUS WORLD

The GRIZZLY BEAR ...
RAREST AND MOST DANGEROUS ANIMAL
INHABITING AMERICA SINCE PREHISTORIC DAYS.

BEFORE THE COMING OF
THE WHITE MAN WITH
HIS MODERN WEAPONS,
GRIZZLIES WERE BOLD
AND DARING—/ TO
KILL A GRIZZLY WITH
A BOW AND ARROW
WAS A COLOSSAL
FEAT, AND A BEAR-CLAW
NECKLACE WAS PRIZED
BECAUSE OF WHAT IT
STOOD FOR.

AFTER THE
AGE OF
TWO YEARS,
GRIZZLIES
BECOME
TOO
HEAVY
TO
CLIMB
TREES.

THE LARGEST BEAR IN A COMMUNITY USUALLY RULES
THAT AREA. HE CLAWS HIS MARK HIGH ON A
TREE TRUNK AS AN INDICATION OF HIS HEIGHT, AND
A WARNING TO SMALLER BEARS TO MOVE ON.

A HALF-TON GRIZZLY HAS A
SMALLER BRAIN THAN A NEW-BORN
CHILD... YET THE CUNNING AND
STRATEGY OF OLD-TIME GRIZZLY
MONARCHS CONTINUALLY OUT-
WITTED THE BEST OF HUNTERS.

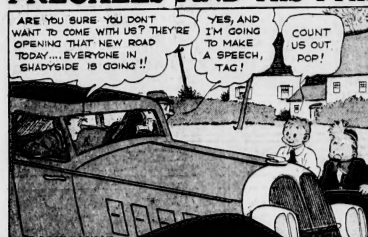

GRIZZLIES
DENT UP IN A HOLE
OR CAVE, AND SLEEP
THROUGH MOST OF THE
COLD MONTHS. THE CUBS, WHICH
WEIGH LESS THAN TWO POUNDS EACH,
ARE BORN IN THE DEN IN MID-WINTER.

THE LAST REMNANTS OF A DYING RACE... THE
RAT AND LAZY DESCENDANTS OF RANOUS
BUFFALO-KILLING GRIZZLIES NOW FEAST
AT THE GARBAGE HEAPS IN YOSEMITE
AND YELLOWSTONE
PARKS.

FRECKLES AND HIS FRIENDS

By Blosser

ARE YOU SURE YOU DON'T
WANT TO COME WITH US? THEY'RE
OPENING THAT NEW ROAD
TODAY... EVERYONE IN
SHADYSIDE IS GOING!!

YES, AND I'M GOING
TO MAKE
A SPEECH,
TAG!

COUNT
US OUT
POP!

WHY SHOULD WE GO
OUT TO SEE A NEW
ROAD OPENED? I
DON'T EVEN KNOW
WHERE IT IS.

WE'RE GONNA BE IN
THE NEWSPAPERS
WHEN WE DO WHAT
WE'RE PLANNING,
AIN'T WE, TAG?

HAS ANYBODY
EVER DONE
THIS BEFORE?

POP SAID A LOT OF
GUYS HAVE TRIED IT,
BUT NEVER QUITE
MADE IT!!

WELL, I STILL HAVE
THE SIGN... THAT'S MORE
IMPORTANT!

OOOPS! THERE
GOES THE LUNCH,
OSSIE... I
COULDN'T HANG
ON TO IT ANY LONGER.

DON'T DROP THE
CANTEEN, TAG, FOR
PETE'S SAKE!!

HANG ON
TILL I GET
A FOOT-
HOLD!

NO WONDER NOBODY
HAB NEVER DONE THIS
BEFORE... IT ISN'T
EASY... I'M KINDA
TIRED!

QUIT KICKIN'
DIRT IN MY
EYES, OSSIE...
I CAN
HARDLY
SEE NOW!

I CAN'T HELP
IT, I'M KINDA
STUCK—NO
PLACE TO
GRAB
HOLD!

GOSH, OSSIE...
THE CANTEEN
JUST WENT
TOO! NOW
WE'RE OUT
OF FOOD
AND WATER.

LISTEN, TAG... I THOUGHT I
HEARD A VOICE... LET'S GO SEE
WHERE IT CAME FROM!

WELL, I STILL HAVE
THE SIGN... AN WERE
GONNA STICK THAT
ON THE SUMMIT OF
BAREFACE MOUNTAIN!

AND FRIENDS, IT IS MY PRIVILEGE
TO ANNOUNCE THE OPENING OF THE
NEW ROAD TO THE SUMMIT OF
BAREFACE MOUNTAIN!
